SCHOOL OF ARCHITECTURE

FABRICATION SHOP

Acceptable materials approved for LASER CUTTING in the Fabrication shop laser systems.

Materials not on this list will either not cut, not cut well or will create noxious and dangerous fumes.

Students found cutting Non-Approved materials will be subject to suspension of all shop privileges.

If you bring a material in the shop, BEFORE CUTTING you must know WHAT THE MATERIAL IS!

- **MDF (medium-density fiberboard)**
- **Acrylic (Plexiglas, Acrylite, Plaskolite, Lucite)**
- **Wood**
- **Plywood, Interior glue ONLY**
- **Cardboard/Chipboard/Paper**
- **Acetate**
